# HARMONY

UINTAH UTE MARCHING BAND  2020

Due to the weather we will present this show next Wednesday Nov 4 at 6pm. Please plan to join us in the stadium at that time. We will be done by 6:30 and it is suppose to be about 55% so plan accordingly.

In our country and local community there is diversity. This diversity is causing hate and contention to reign amongst our people. Think how boring the world would be if we were all the same. Why is it that we can not just get along? It's ok that we are different. It's ok that some people like A and others like B. We can still be respectful and kind.

It is through this mutual kindness and respect that we can create a harmonious community, County, State, Country, and World. The Uintah Instrumental music concert this year is titled "Harmony." While most will think the title is a play on the musical element, we want the people here this evening to think about the deeper meaning. With diversity working together we can create a beautiful society and live in Harmony.
