

Hawaii 2021 Update

Yes we are still going!

Total cost is \$2339.00 per traveler.

We do not have confirmed travel dates, yet. I'm hoping to have those the end of Jan.

You should all have an account on cuttime.net to track your finances. If you do not please get that done, so I can update your info.

You should be a member of the Hawaii BAND app group. All important information for the trip will be shared there.

You should have filled out the registration form from the website.

You should have some kind of deposit in the Hawaii trip account at the HS, and if you are on

track with the original plan you should have about \$1800 in there.

There is a current fundraiser that you should be taking advantage of, information is in the BAND app group.

According to the original information there are no more refunds for monies paid after the end of December. However, the company we travel with has an "insurance" plan you can purchase for \$210 per person. It will get you all your money back except the \$210 by Oct 1. Oct 1 - Nov 1 50% and after Nov 1 you can get 10% back. If you travel you get \$105 back from the cost of the plan. They call it the Sound Assurance Plan.

At this time they are planning the event as normal next December. They feel strongly that COVID will not be an issue then.

I want to purchase plane tickets in January. I know there has been some talk of changed minds. I need to know for sure who is going by Christmas. Please fill out the confirmation form on the web site ASAP.
